

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Quinque subjungimus indices.

Horum primus exhibet seriem codicum qui in toto hoc opere recensiti sunt.

Tribus sequentibus juvari poterunt eruditi viri ad reperiendos codices qui olim sub diversis nominibus vel siglis citati sunt. In secundo nimirum memorantur, quantum definire licuit, nomina virorum vel institutorum penes quos vel quae fuerunt isti codices antequam bibliothecae Parisiensi illati sunt. Tertius index tradit concordantiam inter numeros quibus olim designati erant codices hagiographici in catalogis bibliothecae regiae Parisiensis saeculo XVII confectis et numeros hodiernos. In quarto indicantur sigla quibus usque ad annos 1862-67 signati fuerunt codices hagiographici eidem bibliothecae adjuncti post annum 1740 et praecipue post annum 1795.

Quinto denique referuntur nomina sanctorum qui in toto hoc opere notandi occurrerunt.

INDEX II

Exhibens nomina virorum et institutorum (quantum reperiri potuerunt) quorum fuerunt codices antequam in bibliothecam publicam Parisiensem illati sunt.

N. B. 1° Nomina virorum plerumque expressa sunt secundum formam vulgarem (d'Aguesseau, Bourbon, Dupuy, etc.).

2° Singula nomina sequuntur numeri (secundum hodiernam notationem) codicum qui ad singula referendi sunt; et deinde indicatur quo loco de viris vel antiquis bibliothecis citatis dictum sit in egregio opere cl. Leopoldi Delisle quod inscriptum est *Le Cabinet des manuscrits de la Bibliothèque Nationale*, tomis tribus (Paris, 1868-81).

3° Ubi post aliquod nomen nullus sequitur numerus, sed alterum nomen sive viri sive loci aut instituti litteris inclinatorum expressum, ad hoc posterius in indice remittitur lector.

4° Codices nonnullarum bibliothecarum quibus olim numeris in illis designati essent, distincte indicare visum est (scilicet Baluzianae, Bigotianae, Colbertinae et monasterii Parisiensis sancti Germani a Pratis). Codices isti recensiti in quadruplici appendice huic indici adjecta.
